ALLERGEN MATRIX - MARCH 2025 (Revision 1)

Please inform us of any allergies or intolerances before ordering. Our allergen matrix lists all 14 common allergens for each dish, and whilst we follow strict preparation procedures, our busy kitchen means we are unable to make a "free from" claim due to the risk of cross-contamination. **Vegan Options:** Our vegan dishes contain no meat or animal-derived ingredients; however, cross-contamination cannot be entirely ruled out. **Gluten-Free/Non-Gluten Options:** Our gluten-free dishes are prepared with gluten-free recipes. Nevertheless, due to shared fryers, we cannot guarantee that these dishes won't contain trace amounts of gluten in the final product. For further details, please ask your server.
